

University of Maryland
Upper Chesapeake
Health is **transforming**
health care in our
community.

With medical expertise and state-of-the-art technology, we deliver advanced, wide-ranging care at both our Aberdeen and Bel Air campuses.

UM Upper Chesapeake Medical Center Aberdeen

660 McHenry Road

(located on nearly 60 acres)

*Increased convenience and access to
important health care services.*

Health and Wellness Center

- 93,000 square feet
- Physician practices and support services including:
 - Cardiology
 - Endocrinology
 - Hematology/oncology
 - Infusion services
 - Orthopedics
 - Physical therapy
 - Primary care
 - Wound care
 - Laboratory services
 - Imaging

Medical Center

- 130,000 square feet
- Maryland's first acute stroke-ready facility with ability to evaluate, stabilize and treat people with stroke symptoms
- Full-scale emergency services
- Adult observation/short stay rooms
- Behavioral health pavilion
- Outpatient behavioral health treatment areas designed to keep patients comfortable and safe
- Helipad for air transfers

Designed With Healthcare in Mind

- Select emergency department rooms are designed to geriatric standards with padded floors, larger fonts on signs, warm colors, brighter lighting and located directly adjacent to the nurses' station
- Modern telehealth system in each patient room for better monitoring and specialty care consultation
- Exterior courtyards for each behavioral health 'neighborhood'
- Large conference rooms available for community use
- LED lighting with automatic dimming controls

A better state of care.
